

SPINAL ORTHOSIS LSO ANTERIOR OVERLAP OPENING

COMPREHENSIVE ORTHOTIC DESIGN

Typical indications:

- **Spondylolisthesis**
- **Spondylolysis**
- **Lower Back Pain**
- **Post-Operative Lumbar Fusions**
- **Compression Fractures**

This LSO, with anterior overlap closure, is extremely versatile and effective. Constructed with Polyethylene derivatives, this orthosis allows immediate post-operative use, and the overlap feature accommodates swelling and circumferential changes. Lightweight and low profile characteristics increase patient compliance and positive outcome.
